Engraving adds texture, functionality, visual
stimulus and a tactile finish to your product
Embossing Rollers Ltd (ERL) is a UK owned and based engraving company serving the embossing and converting industries.

Expertise and skill lie at the heart of the company, which embraces over 60 years experience in the field of engraving and embossing roller technology. Quality and pride underpin our work.

An in depth understanding of embossing technology allows us to be innovative delivering practical solutions to unusual applications.

Our engraved rollers are used in the following industries:-

- Tissue
- Paper and Board
- Leather & Artificial Leather
- Flooring
- Wall Covering
- Edgebanding
- Foils
- Gift Papers
- Glass & Acrylic
- Rubber
- Extrusion
- Non Woven
- Film
- Cigarette Foils
- Packaging

We work with our customers to ensure maximum satisfaction realising always the need to fit in with their schedules and production needs.

We strive to understand the products and services of all our customers and the challenges that they face, supporting them whenever possible in their endeavours to remain at the forefront of their market.
